

Social and Environmental Change in Rural England

INTRODUCTION

Hello, I am from University of Leicester. You should have received a leaflet through your door about a study we are doing of

Would you or someone else in your household mind sparing some time to participate in this study?

If **NO**, thank person for their time, end interview and fill in logging sheet.

If **YES**, here is an information sheet giving further details of the project. We can either do the interview now or arrange another time that is more convenient for you. We are also interested in getting individual responses so as well as interviewing you we would like to interview all the other adult members of your household living here. Do you think any of the other members of the household would be willing to be interviewed as well? We could either do the interviews at the same time or we can arrange alternative times to interview yourself and other people.

Do you want to do the interview now or at some other time?

If doing the interview later, complete logging form. Leave respondent with information sheet, highlighting contact details.

If doing the interview now, check how many interviews you will be doing now and give the respondent(s) some time to read through the information sheet and ask any questions they have about the project. Then ask them to complete the consent form(s) and check that they are happy to be recorded.

Checklist

N.B. If other interviews can be arranged they should be, but time should not be wasted at this point in pressing for a firm time.
