

Consent to participate in research

Investigators: Professor Miriam Meyerhoff, Dr Erik Schleeef.

I agree for my son/daughter to take part in this interview, for which they have volunteered, because they are a native speaker of a local variety of British English.

I understand:

- ☐ What the interview involves
- ☐ What the research is about
- ☐ That my son/daughter's name and any personal details will be protected at all times
- ☐ That my son/daughter's interview may be stored and used for secondary analysis as part of a wider database

I understand that my son/daughter can withdraw from participation at any time and that they are under no obligation to complete the interview.
