

Nagorno Karabakh Questionnaire

September 2013

I. SURVEY CONTROL DATA AND INTRODUCTION

1. Respondent ID: |_|_|_|_|

I am [*name*] from [*place*]. I am here to ask if you would be willing to participate in a research study directed and commissioned by a researcher at a British university, University College London, under the supervision of Dr. Kristin M. Bakke. You can write to her at the following address [*give card*]: School of Public Policy, 29/30 Tavistock Square, London WC1H 9QU, UK. You can also call her at the following phone number + 44 207 679 4983.

Dr. Bakke is researching de facto states and post-war societies and would, therefore, be very interested in learning more about the views of people who, like you, live in Nagorno Karabakh. The study seeks to assess people's views of their economic, social, security, and political situation during and after the war in 1988-1993. The study is part of an academic research project, and it serves no other purpose; it is not affiliated with any government or political party. The information collected in the study will be used to better understand war-time and post-war societies. Your input will, therefore, be *very* valuable and is greatly appreciated. All your answers are anonymous and confidential. Your name or personal information will never be used in any articles, books, or reports that are published based on the survey.

It is up to you to decide whether to take part in the survey. I hope you will participate, but choosing not to do so will not disadvantage you in any way. If you choose to participate, you can tell me when a question makes you uncomfortable, and we will skip that question.

2. May we have your permission to ask these questions, and would you be willing to participate in this survey?

1. Yes
2. No

3. *If respondent refuses to respond:* Would you be willing to tell me why? [*Record, only if respondent is willing*] _____
