

This archive contains files containing data and analysis from

Project ES/K001477/1

**THE HEARING BODY: How auditory perception influences body representation**

The following files have been archived:

<b>File name</b>	<b>Description</b>
TjaduraJimenez_FrontiersinPsychology_2015_Experiment1.csv	CSV file containing a dataset generated by collecting questionnaire data and behavioural data from individuals exposed to different sound and body posture conditions. The dataset contains 42 variables.
TjaduraJimenez_FrontiersinPsychology_2015_Experiment2.csv	CSV file containing a dataset generated by collecting questionnaire data, behavioural data and physiological data from individuals exposed to different sound and body posture conditions. The dataset contains 42 variables (same variables as in TjaduraJimenez_FrontiersinPsychology_2015_Experiment1.csv).
VariableDescriptions.pdf	This file contains descriptions for the variables in files TjaduraJimenez_FrontiersinPsychology_2015_Experiment1.csv and TjaduraJimenez_FrontiersinPsychology_2015_Experiment2.csv
ConsentForm.pdf	Consent form for participants in experiment.
ParticipantInformationSheet.pdf	Project information sheet given to participants in experiments.
