Consent Form

This survey is part of a research project designed to understand the impact of agricultural commercialization on people's livelihoods and local economies in general. We will be asking you to provide some background information about your household and its livelihoods. Depending on the number of your household members and the relevance of some sections of the questionnaire to your household, the interview may take about 45 minutes or longer to be completed. You are allowed to ask questions at any stage of the interview and you may refuse to answer any question that you may feel uncomfortable to respond to without any consequences. You may also choose to withdraw your participation in this study at any time. We would like to assure you that this study will pose no risks to you or to any other member of your household or community. All information that you give to us will be kept confidential and you will not be identified by name or address in any of the reports or other output that we plan to produce.

By signing this form, you imply that you have read and understood the information about this study and that you hereby agree to voluntarily take part in it.
