Base : All

	I consider myself to be a law abiding driver (a)	Most people in cars could use public transport instead (b)	Compared to a few years ago I find myself getting more frustrated and annoyed while on the road (c)	I would find it very difficult to adjust my lifestyle to being without a car (d)	I don't think I am very likely to get caught if I break most motoring laws (e)	The benefits of breaking minor driving laws outweigh the risks of getting caught (f)	If I thought there was a greater chance of getting caught I might bend the driving laws less frequently (g)
