

## **Additional consent form**

### **The role of baby-talk words in early language development**

I acknowledge that I have participated in the research project “The role of baby-talk words in early language development” carried out by the University of Edinburgh.

Child’s name: \_\_\_\_\_

Your name: \_\_\_\_\_

Contact details (please provide at least one contact)

Email: \_\_\_\_\_

Telephone: \_\_\_\_\_

I have contributed to the project audio-recordings of conversations involving my child. I give permission for [please tick as appropriate]:

- the unedited audio-recordings to be deposited to UK Data Service under their permission access agreement. My name, my child’s name and other personal details will not be submitted to the service. I understand that no one can access the recordings unless given explicit permission by the principal investigator of the project (Dr Ota). Permission will be given only to researchers who can guarantee that they will disclose no information in the recordings that can be linked to our identity.
- the unedited audio-recordings to be deposited to the Child Language Data Exchange System. My name, my child’s name and other personal details will not be submitted to the system. I understand that the transcripts of the recordings will have all names replaced with pseudonyms, but the recordings will not be modified, which can be accessed by any web user.

Or:

- I do not give consent to either one of the data share options described above.
