European, Ethnic and Expatriate: A Longitudinal Comparison of German and British Social Networking and Associational Formations in Modern-day Asia

The following files have been archived:

File name	Description
Data folder – Data.zip	
Association Databases.zip	Databases of ethnic associations in the sites of study with membership information. Data included varies depending on information available in the different sites of study, as well as whether it is historical or contemporary data. In the case of the latter data is more restricted due to anonymization requirements, whole historical data includes fuller details on members and their background. The data included here is not a representation of the full membership, but rather only a sample from data available through historical and contemporary sources.
InterviewTranscriptions.zip	28 interview transcript of interviews with British and German expats; some transcripts in German. Length of transcripts varies in light of anonymization requirements for the project in line with consent agreements with participants. As much of the information made respondents immediately identifiable, transcript sections were taken out to maintain anonymity of respondents. Includes transcript overview. 8 responses to a written questionnaire for cases where interviewees had to cancel interviews. Includes questionnaire.
Survey.zip	53 responses to a quick survey of expats. Includes questionnaire of the survey.
Documentation folder – Documentation.zip
