

**ESRC Future Research Leaders- Mapping Urban Energy Landscapes**

**Participant Form**

The Research Councils and UCL attach high priority to the ethical conduct of research. We therefore ask you to consider the following points before signing this form. Your signature confirms that you are willing to participate in the study.

- You are contributing to the research by hosting our meeting. Our discussions will be recorded and some parts of them transcribed; notes will also be taken. The recordings will be kept securely and later destroyed; the transcriptions, together with any field notes, will be retained by the project team and analysed as part of the study.
- The findings of the research will be written up as feedback for the participants, for policy makers and for other organisations interested in our work. The findings will be published, and they may also be used for teaching and research training. The written work may include quotations from the interviews, but individuals will never be named.
- Your contribution to the research is very valuable given your expert knowledge about these critical issues. Nevertheless, should you wish to withdraw from the project, during or soon after the interview we will understand and respect your decision immediately.

**Confirmation**

I confirm that I have freely agreed to participate in the project 'Mapping Urban Energy Landscapes'. I have been briefed on what this involves and I agree to the use of the findings as described above. I understand that the material is protected by a code of professional ethics. I hereby assign copyright in my contribution (the interview transcript) to UCL.
