

This archive contains files containing data and analysis for

Ellefson, M.R., Ng, F, F.Y.-, Wang, Q., & Hughes, C. (2017) Efficiency of Executive Function: A Two-Generation Cross-Cultural Comparison of Samples From Hong Kong and the United Kingdom. *Psychological Science*. DOI: 10.1177/09567976177196761867681728

From ESRC Project ES/K010255/1

Cross-cultural study of family influences on executive functions in late childhood

The following files have been archived:

File name	Description
Ellefson_etal_PsychScience_Data.xlsx	Excel file containing the dataset used for Ellefson, Ng, Wang & Hughes (2017, <i>Psychological Science</i>). The dataset contains 945 rows of data (parent-child dyads) and 26 columns of variables. The data are included in the 'Data' tab. The explanation of variables in the 'Explain Variables' tab
EFtasks_ExperimentDetails.pdf	This file contains details about the exact set up for each of the Executive Function tasks, including information about the specific stimuli, number of trials and any other relevant parameters

Data Notes

The data included here are those included in a paper that was published by the journal *Psychological Science* (DOI: 10.1177/09567976177196761867681728).

The full dataset can be found at: <http://reshare.ukdataservice.ac.uk/852570/>
