Dear Participant,

Thank you for agreeing to take part in this research.

In this study, we are interested in the process by which people make **word-group associations**. This is a topic of considerable interest to cognitive neuroscientists interested in neural networking in the brain.

Your task is to look at images describing groups of people and to select a **negative word** that you associate with each group. Your responses will help psychological scientists understand the process of word-group association which is important for understanding the cognitive and neural processes involved when people form impressions.

For your information, we will also provide you with feedback from previous groups that have taken part in this research.

To begin the study, please press the "Click Here" button at the bottom of this page. You will then be directed towards an image followed by several adjectives. Your task is to choose **one** of these adjectives to describe the group featured in the image.

Thank you very much for your time. Without you, we could not complete our research.
