What I really liked:

- I liked the practical examples and that it was obvious that the presenter had plenty of experience. The content was brilliant and eye-opening.
- Examples given from real situations. Educators sharing their experiences.
- Learn different skill with dealing with trouble children and quiet children.
- Practical examples of ways to handle undisciplined learners.
- Practical ideas.
- Practical ideas to use at home and in the classroom.
- Openness and safe environment to answer questions.
- Absolutely EVERYTHING!!!
- New approach – very innovative. Paradigm shift required. ☺
- The new approach given to old teaching ideas.
- The tools that have equipped us to be confident in our space (work/home). Hands on material and examples you can apply at work and home.
- I loved the stories and I loved the presenter. I feel empowered as an educator and mom.
- Practical examples. Feedback from previous weeks. Karen's enthusiasm for the topic presented.
- Karen is AMAZING!!
- Great examples and tools.
- I really enjoyed learning the different skills. NB as I'm a 2nd year teacher and had a tough first year. I also enjoyed the real-life examples.
- The skills that were explained and that it was enlightened to everyday situations.
- The practical ideas, handouts. Ideas to use at home and school.
- Examples to use with my own child.
- Practical ideas learned from her personal experiences.
- Loved the presenter! Xxx
- The presenter's manner and the way she can answer any question.

- I enjoyed the new ideas and the examples of how to apply it. It was practical and I feel that it will be easy to apply in both a classroom and in a family setup.
- Excellent way of presentation. Loved the real situation examples. Liked the home and school application examples.
- Absolutely Everything! Thank you
- It is things that you can really try and it really works – relevant.
- The whole course was insightful and informative – loved it all!!
- The course offered practical ideas and useful tools to implement in the classroom and at home.
- All the practical examples of discipline.

What I liked least:

- A lot of people intruding presenter while course to share example a lot.
- A lot of the tools have been tried, but seems to not be as effective in a classroom of 35+ as with a parent and 1 or 2 kids. Time constraints! Curriculum demands.
- Re-cap of previous week's work takes up too much time.
- Length of sessions.
- The length of the sessions, a lot of recap
- Liked everything, but need to "unlearn" 30 odd years of punitive discipline ☹
- A lot of examples are not applicable to teachers, because they are based on one on one idea.
- The course being split and run over a few weeks.
- Nothing. I did not mind being at a workshop every Thursday for the past 5 weeks.
- People / person at my table who didn't keep quiet.
- Would have loved more info in the handouts.
- People in group (colleagues!) making a lot of noise.
- Sound
- The holiday interruption – 3 week break – had to get focused and catch up again

Any other comments:

- I'm very glad for the information but I'm not sure how well I will be able to implement it.
- Excellent presenter.
- Wonderful, amazing course I would remend it to everyone. (Parent and teachers).
- Thank you for all your effort.
- Thank you for a very useful course!
- Thanks! ☺
- Thank you so much Karin.
- Her course should be taught to ALL teachers! Compulsory!
- None
- Thanks very much!
- Thank you very much for this opportunity.
- Would like to be able to maybe discuss a scenario set and then how to solve the problem – ask more questions. Thank you.
