SME Survey 2016: Participant Information Sheet

The research

We are conducting research to explore the economic impacts of climate variability on businesses in Botswana, Zambia and Kenya.

The aim of the survey is to gather information and opinions about the way in which climate variability impacts business activities such as yours. During this survey you will be asked a variety of questions about your business and about your experience of climate variability.

Your role within the study

The information you provide during the course of this interview will be treated as strictly confidential and will be anonymised. Neither your name, nor the name of your business, will be used in any document based on this survey.

You are free to discontinue the survey at any time and you are free to decline to answer any question on the survey.

If at any point during the survey you wish to take a break, please just let the interviewer know.

Contact Us

In Zambia the study is being overseen by a team of three researchers comprising Mr Mukelabai Ndiyo (0977430928) and Mr Mubita Nyambe of the University of Barotseland in Mongu and Dr Kate Gannon (+447725558583) from the Grantham Research Institute on Climate Change and the Environment (London School of Economics). Should you have any questions, or if you require more information about this research, please do not hesitate to contact us.

Your assistance with this research is greatly appreciated.
