

Preamble:

We are researchers from the University of Stirling. Our research aims to identify more effective land management strategies from a better understanding of farmers' preferences. To that end, we would like to invite you to take part in the behavioural games and short questionnaire.

Please note that we are conducting independent research: we are independent of governmental or conservation organisations and thus we have neutral views with regard to policy decisions about land and wildlife management.

The behavioural games and questionnaire will take about 90 minutes but you are free to leave at any time.

Before we start we want to make sure that you understand the research we are doing and what we will do with the information we collect. **[Please see participant information sheet]**

Use of your personal data:

We may use your personal details (i.e. your name, phone number and postal address) exclusively for research purposes or follow-on research. We confirm that all personal information held by us about you will not be shared with anyone else. We will keep your information for five years, or until you ask us to delete it from our database. If you have any questions in relation to our use of your personal information, you can contact Dr Sarobidy Rakotonarivo sarobidy.rakotonarivo@stir.ac.uk and/ or Dr Isabel Jones (i.l.jones@stir.ac.uk) or call 07803 766 146.

We would like to note that:

- We will keep all the information you give us confidential.
- Any notes or recordings we make will be kept safe.
- We will not share your personal details or personal views with anyone else.
- You can stop participating in the games or completing the questionnaire anytime should you judge it necessary.
- Neither your name nor your personal details will be reported in any output linked to this research.
- You can ask to withdraw your data within one month of participating in the study.

I have read and understood the above terms and am willing to participate.

• **Yes** ☐ **No** ☐

If you would like to receive a report containing the findings, please enter your email address below:
