

# University of Glasgow | Institute of Neuroscience & Psychology

You have been invited to take part in a study examining the calibration of trust towards an autonomous image classifier. Please read the following statements relating to this study, and then please sign only if you agree to all statements.

1. I have freely consented to take part in a scientific study being conducted Martin Ingram, which is supervised by Professor Frank Pollick, within the School of Psychology.
2. The study has been explained to me, I understand what is expected of me, and what my participation will entail.
3. I am aware that I am free to halt my participation in the study at any time, without giving reason, with no questions asked of me, and no repercussions of doing so.
4. I understand that the data resulting from participation will be treated with the strictest confidence, and that my information will remain anonymous.
5. I am aware that I can request information regarding the results of the study at a later date.
6. I understand that the appropriate participation credit(s) or payment will be given to me upon completion.
7. I understand that I can receive additional explanation of the study aims upon completion.
