Facebook Interactions

Thank you for your interest in this project, which is concerned with factors influencing how we interact with information we see on Facebook.

If you choose to take part in this study, you will be asked to complete a number of demographic questions, then three short questionnaires measuring your personality, political views, and knowledge about digital media. You will then be shown a small number of items that had been posted on Facebook, and will be asked to rate how likely you would be to 'share' them, along with other aspects of your reaction to them. Once you have done this, you will be asked again for your consent to use the data you've supplied for research purposes. Finally, you'll see some more information about the study and what we are trying to find out.

Participating in this study should take most people around 10 minutes.

- No information from which you can be personally

identified (names, email addresses, or similar) will be collected or shared at any time, or published in research outputs arising from this project.

- We will take care to respect your privacy at all times. The duty of confidentiality is not absolute and in exceptional circumstances this may be overridden by more compelling duties such as to protect individuals from harm.
- You will not receive personalised feedback about the questions you complete on the next pages. However, you will receive debriefing information about the study once you have completed it.
- If you do not wish to answer any of the questions, you do not need to do so. If you change your mind about participating, you have the right to stop at any time without giving a reason. Data you have already submitted in this study will not be analysed.

Participants will be given unique codes at the point of test to allow for their data to be identified should they request to withdraw. If you wish to withdraw your data, simply email the principal investigator T.Buchanan@westminster.ac.uk, stating your participant code and asking to withdraw, within 14 days of participating. After this time, your anonymised data will have been included in aggregate datasets for analysis.

- The data you provide will be stored indefinitely on

computer systems controlled by the University of Westminster. The data you provide may be re-used in other research projects at the University of Westminster or elsewhere. The data may be transferred or made openly available to other researchers, e.g. through a data repository, for such purposes. This includes, but is not limited to, the UK Data Service archive.

- No risks to you as an individual are anticipated as a result of your participation.
- You will receive compensation for participating, according to the rates and procedures you have agreed with the research panel company that provided you with a link to this study.
- All participants must be aged 18 or over.

This project is being conducted at the University of Westminster in the UK. It has been approved by the University of Westminster Research Ethics Committee (project code ETH1819-1420). The principal investigator is Professor Tom Buchanan (t.buchanan@westminster.ac.uk) who should be the first point of contact if you have any queries. If you have any complaints, you may contact the Head of School of Social Sciences, Professor Dibyesh Anand

(D.Anand@westminster.ac.uk). This research is being funded by the Centre for Research and Evidence on Security Threats – an independent Centre commissioned by the Economic and Social Research Council (ESRC) and which is funded in part by the UK's security and intelligence agencies.

If you have read the information above, are aged 18 or over, and give your consent to participate under these conditions, please tick "I wish to take part in the study" and then click the 'Continue' button.

Printed on this page, there are phrases describing people's behaviors. Please use the rating scale below to describe how accurately each statement describes *you*. Describe yourself as you generally are now, not as you wish to be in the future. Describe yourself as you honestly see yourself, in relation to other people you know of the same sex as you are, and roughly your same age. So that you can describe yourself in an honest manner, your responses will be kept in absolute confidence.

Please read each statement carefully, and then fill in the bubble that corresponds to your reply.

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

REVEALED: UN PLAN TO FLOOD AMERICA WITH 600 MILLION MIGRANTS

By 2050, 73% of population would be immigrants or their descendents

A 2001 UN strategy document is getting fresh attention in light of the migrant crisis because it outlines the need to flood America and Europe with hundreds of millions of migrants in order to maintain population levels.

Entitled *Replacement Migration: Is It a Solution to Declining and Ageing Populations?*, the plan seeks to “offset population decline and population ageing resulting from low fertility and mortality rates.”

Debrief

Thank you for taking part in this study.

We are trying to investigate factors that influence whether people interact with material posted on Facebook – and in particular, what influences the extent to which 'Fake News' items may be propagated. This is seen as a significant problem for society nowadays, and governments and other public bodies are working to find ways to minimise the harm it does to society.

In this experiment, you first completed measures of personality, digital media literacy, and political orientation.

You then saw three items that had been publicly posted on Facebook in the past. These were all genuine examples of disinformation – material that was untrue, and had been posted online for the explicit purpose of misleading people (e.g. for political purposes).

Some respondents randomly saw the messages appearing to have been posted by trustworthy sources (e.g. a news website), while others saw the same messages but posted by a less trustworthy source.

Similarly, some respondents saw the messages with information that it had previously been shared by a large number of people, while for others it appeared to have been shared only a few times.

The purpose of this was to test the hypotheses that the trustworthiness of the source, or the extent to which other people had endorsed it, would influence your own likelihood of sharing it. Similarly, we wanted to test whether your own personality, or digital media literacy, influence the likelihood of you sharing it. Finally, we were interested in whether the extent to which the orientation of the messages was consistent with your own political orientation influenced the likelihood of you sharing it.

We expect the findings to be informative about which message and recipient characteristics might influence

the likelihood of false material spreading online. This should provide evidence that can be used by public bodies developing initiatives to reduce the spread of disinformation and the harm it does.

Thank you once again for your help with this project. Your individual participant code was \$ {e://Field/ID%20Code} . You can use this if you need to get in touch with us about your participation. If you wish to withdraw your data, simply email the principal investigator T.Buchanan@westminster.ac.uk, stating your participant code and asking to withdraw, within 14 days of participating.

The study is now complete. Please now click on 'Continue' to finish up.
