

Grant Numbers: ES/R5009381/1 and ES/P000681/1

Sponsor: Economic and Social Research Council/Scottish Graduate School of Social Science

Project title: Simultaneously Presented Facial and Contextual Information Influences Observers' Facial Expressions and Self-Reports of Emotion

The following files have been archived:

File name	File description (Short description of content, sample size, format, any linking between different types of data, i.e. survey and interviews/focus groups)
Data.csv	Dataset collected from the experiment, with 42 participants, who completed 200 trials when looking at images of different valence and arousal levels. The images were selected from the International Affective Picture Database and Nencki Affective Picture Database.
Data_Analysis.Rmd	R Markdown file containing the code used in the statistical analysis of the data.
Statistical_results.RData	R file storing the statistical analysis results reported in the main section of the paper and in the Supplemental materials file section C.
Statistical_results_supplemental_materials_section_B.RData	R file storing the statistical analysis results found in the Supplemental materials file section B.
Variable_List.pdf	Text-based description of each variable within the dataset.
Consent_Form.pdf	Text-based consent form (blank) signed by all participants before the experiment.
Information_Sheet.pdf	Text-based information sheet which detailed the nature of the experiment and was read by all participants before the experiment.
Supplemental_data.pdf	Text-based sheet which presents supplementary information to that presented in the research paper associated with the data.
