Mainstreaming Global Mental Health: A Praxis Nexus Approach

Audio consent will be taken before the interview commences

Thank you for taking part in this interview. Do you have any questions about the study before we start?

Before we start the interview, I would like to audio-record your consent. I will read out the conditions of consent and ask you to confirm each. You have a copy of these to keep. I want to remind you, though, that you don't have to answer any of my questions and can leave at any point.

I am starting to audio-record now. TAKE CONSENT. Thank you. We will start the interview now.

Interview structure	Questions
(~60 minutes)	
Background	1. Can you tell me a bit about your involvement in GCRF and international development work?
Learn where past non-	2. Did any of this work engage deliberately with issues related to mental health?
mental health projects	3. If so, can you tell me about this?
'brushed up' against mental	4. If not, thinking about this now, what opportunities might there have been to engage with issues related to mental health in
health	this work?
Awareness of mental health	5. What mental health related policies or initiatives are you aware of in your country?
policy and initiatives	6. What mental health related policies or initiatives are you aware of globally?
	7. If aware, do you see an opportunity to engage with any of these mental health policies or initiatives in the work you do?
Explore acceptability of	8. To what extent is their potential to incorporate mental health impact into the kind of work you do?
incorporating mental health	9. What do you see as the main challenges of incorporating mental health impact into the kind of work you do?
impact into ODA-oriented	10. How might these challenges be overcome?
work	11. What support would enable you to incorporate mental health impact in your work?
	12. To what extent do you think there is an appetite to incorporate mental health impact into the kind of work you do?
Consult on the developing	13. The current research is interested in 'material practices' which we define as 'people working together with concrete
Framework	things.' Does this concept resonate with you as an aspect of you work?
	14. What is your immediate reaction to the idea that this aspect of your work could be developed to extend the mental health impact of what you do?
	15. What support might you need to do this?
Concluding questions	16. Is there anything else on incorporating mental health impact into the kind of work you do that we have not yet covered?
	17. Are you willing to put me in touch with one of your collaborators in LMIC?
	18. I would like to stay in touch with you about this work. Are you happy for me to send you updates by e-mail and to re- contact you in relation to developing this work?
