

## Codes

Covid

Benefits to research  
or clinical team or  
changes to service  
delivery

Measuring  
and  
recording  
impact

Description of the  
research // health  
research literacy

- Training healthcare students
- Other research

Views of PPI

All HCPs  
could be  
researchers

Attending for research  
visits

- Arranging the visit
- Visit experience

Personal benefits

- Accessing/navigating clinical services
- Altruism & giving back
- Deeper understanding of condition/health/inc confidence
- Developing networks
- Explored psychological health
- Felt listened to
- Meeting others with same condition
- More rigorous assessment

Sharing  
findings with  
HCPs / wider  
public

Sharing  
findings with  
participants

Relationship with  
research team

Acceptability of  
different research  
methods

Ideas for future  
research

Reimbursement / payment /  
other acknowledgement

Commercial  
drivers or  
pressures

Study  
documents

What makes  
good  
research

Relationship with clinical team

View of healthcare

Research part  
of clinical  
care

## Theme 1: Optimising research experiences

Description of the  
research // health  
research literacy

- Training healthcare  
students
- Other research

Attending for research  
visits

- Arranging the visit
