

Preparation and Inhibition

Please initial within each box

- ☐ I understand that my participation in this project will involve responding to a target based on what task I have been told to complete: e.g. colour judgement, a shape categorisation or a line orientation judgement task. This will require no more than 45 minutes of my time.
- ☐ I understand that participation in this study is entirely voluntary and that I can withdraw from the study at any time without giving a reason and without loss of course credit or monetary compensation.
- ☐ I understand that the information provided by me will be held anonymously so that it is impossible to trace this information back to me individually. Information will be held securely on the University network and on encrypted USBs in a locked office. In accordance with the Data Protection Act this information may be retained indefinitely. To ensure access to the data for the wider research community, the anonymous dataset will be archived in the UK Data Archive.

OPTIONAL: Only Initial If you agree for a codename to be created.

- ☐ **I understand that my participant number will be tied to a codename (consisting of my initials and day and month of birth, e.g. LP2110) to enable researchers to investigate individuals differences across studies. Your codename will not be made public and will only be used to combine datasets across studies. The codename will be held confidentially so that only the postgraduate experimenter Laura Prosser and Dr Rachel Swainson has access to this data and can trace the information back to me personally. The codename will be held securely on the University's network and on a piece of paper in a locked office up to February 2018 after which period it will be completely destroyed. In accordance with the Data Protection Act I can have access to my information at any time.**
- ☐ I understand that at the end of the experiment I will be provided with additional information about the purpose of the study.
- ☐ I have had an opportunity to discuss with the experimenter any questions or concerns I have about the study at this stage.

I consent to participate in this study conducted by Laura Prosser (Postgraduate Student) in the School of Psychology, University of Aberdeen under the supervision of Dr R. Swainson.
