

## Digital Stories feedback form for parents

Thank you again for your child's participation in the Digital Stories project at [redacted]. The pupils have done a fantastic job creating their videos and each one is unique and paints an excellent picture of their individual experiences of school. You may or may not have had the opportunity to watch your child's video. Either way, we would be grateful if you could fill out a short

8 Questions

START →

If you would like to share your views as a parent of a child who took part in the Digital Stories Project, we would be grateful if you could use this form. We will ask you some questions about your child's involvement in the project.

It will take between 5 and 10 minutes to complete and we will use your responses to improve the project for future schools and in the evaluation of the method, which we may use in our writings about the project, in reports or papers and on our website.

You can choose whether to answer the questions, or if you would like to skip some questions, that is also fine. We won't ask your name or your child's name, so we won't know who out of the group has responded.

Please feel free to be honest so we can improve things in the future, we would like to know what your thought was good and what could be better.

What differences or changes (if any) have you noticed in your  
child this year?

You might want to think about their behaviour generally at home or at school (comments from other teachers, for instance), their connections with other peers, their self-regulation, or anything else you can think of.

## Can you share your thoughts about your child's Digital Story?

Did anything surprise you about the video? Was there anything you weren't aware of or anything that you don't agree with? Was there anything missing from your child's video that you think would represent their school experience?
