This archive contains files containing data and analysis from

Project ES/R01163X/1

Performance Related Pay and Health: An Interdisciplinary Study: Experiment 1.2: Sample Selection

The following files have been archived:

File name	Description
exp1.3_cortisol.csv	This file contains the dataset generated by analysing cortisol levels in each salivary sample provided by participants. Each row corresponds to one saliva sample.
exp1.3_survey1.csv	This file contains the dataset generated by Survey 1. Each row corresponds to one participant.
exp1.3_survey2.csv	This file contains the dataset generated by Survey 2 and 3. Each row corresponds to one participant.
exp1.3_performance_practice.csv	This file contains the dataset generated by zTree after each morning practice session. Each row corresponds to one participant.
exp1.3_performance_main.csv	This file contains the dataset generated by zTree after each afternoon main session. Each row corresponds to one participant.
exp1.3_variable_descriptions.pdf	This file contains descriptions of each variable (column) found in the dataset files
exp1.3_consent_form.pdf	Consent form for participants
exp1.3_information_sheet.pdf	Information sheet given to participants
exp1.3_doc_survey1.pdf	This file shows the first questionnaire form
exp1.3_doc_survey2.pdf	This file shows the second questionnaire form
exp1.3_doc_survey3.pdf	This file shows the third questionnaire form
exp1.3_program_sessionPRACTICE.ztt	This file contains the zTree code used to run each morning practice session
exp1.3_program_sessionMAIN.ztt	This file contains the zTree code used to run each afternoon main session

exp1.3_protocol.pdf	This file contains the research protocol for the experiment

The cortisol, survey and performance dataset can be linked via the participant, session and desk IDs.
