

exp2.2_cortisol.csv

No - test tube number

Subject - participant ID number

Session - experimental session number

Desk - desk number

Sample - salivary collection timing (1st, 2nd, 3rd or 4th collection)

Condition - experimental condition (nonPRP, PRP or PRPminus)

Notes - notes made during the experiment

Cortisol 1.value - first cortisol extraction of sample

Cortisol 2.value - second cortisol extraction of sample

Cortisol (nmol/l) mean - average value of cortisol 1 and 2

CV (%) - intra-assay value

Comment - comments noted by lab

exp2.2_survey.csv

Session - experimental session number

Subject - participant ID number

Desk - desk number

q1_1 to q1_13 - corresponds to question 1 - question 13 in Survey 1

q2_1 to q2_22 - corresponds to question 1 - question 22 in Survey 2

*note - blanks indicate missing information, y indicates 'yes', n indicates 'n' where relevant

exp2.2_performance.csv

session - experimental session number

player_id - desk number

prp_group - experimental condition (0=nonPRP, 1=PRP, 2=PRP minus)

ptotal - total number of correct practice questions

total - total number of correct work task questions

question - number of questions seen in work task

incorrect - number of incorrect questions (does not include skipped over)
