

exp2.3_cortisol.csv

No - test tube number

Subject - participant ID number

Cortisol 1.value - first cortisol extraction of sample

Cortisol 2.value - second cortisol extraction of sample

Cortisol (nmol/l) mean - average value of cortisol 1 and 2

CV (%) - intra-assay value

Comment - comments noted by lab

Session - experimental session number

Desk - desk number

Sample - salivary collection timing (1st, 2nd, 3rd or 4th collection)

PRP - experimental condition (PRP_exp, PRP_con, nonPRP_exp, nonPRP_con)

Prior_participation - whether they have taken part in a previous experiment in overall project (Yes or No)

Prior_participation_study - name of previous experiment, if any

Session_order - if it is their first or second session they are participating in

exp2.3_survey.csv

Session - experimental session number

Subject - participant ID number

Desk - desk number

q1_1 to q1_14 - corresponds to question 1 - question 14 in Survey 1

q2_1 to q2_26 - corresponds to question 1 - question 26 in Survey 2

Order - if it is the first or second session they are participating in

*note - blanks indicate missing information, y indicates 'yes', n indicates 'n' where relevant

exp2.3_performance.csv

Session - experimental session number

Desk - desk number

prp_group - experimental condition (0=nonPRP, 1=PRP)

p_total - total number of correct practice questions

total - total number of correct work task questions

question - number of questions seen in work task

incorrect - total number of incorrect work task questions

rank - (ONLY CORRECT IN EXPERIMENTAL SESSIONS) ranking position within experimental session

exp2.3_rank.csv

Session - experimental session number

OthersRank - manually calculated rank position across all sessions

Desk - desk number
