infocons Dear participant, Thank you for taking part in our study. **Who are we?** We are a group of researchers from Lund University that are part of the international research project Migration, Transformations, Sustainability (MISTY). We are working on a study about the lives of city residents and the natural and social environment in three European cities. The survey has been organised by the Maastricht University the Netherlands. We aim to understand how life events, such as forming a family or moving to another place, affect the way people get involved in their community or take care of the natural environment. Participation takes about twenty minutes.

**What is the survey about?** This questionnaire includes questions about you and your life in your city of residence. For instance, we will ask about your main occupation and your family life. We will also ask about your perceptions of your neighbourhood. We ask about your neighbourhood of residence. To ensure anonymity, we will not register the name of the neighbourhood. Instead we use anonymised codes. In line with GDPR, your answers will remain confidential. Reports on the study will only mention general patterns, not individual responses. If you do not want to answer a question, you can select the option 'prefer not to say'. You can stop your participation at any time. The Maastricht University will retain securely your replies for 10 years. You can withdraw your data at any time contacting us [here](#) indicating your randomly assigned respondent ID: `{e://Field/Random%20ID}`. Please note: You must be 18 or older to participate in this study. For more information on the project click [here](#). For more information on your rights click [here](#).
